

## MARCH ISSUE 2018

# BRoW4

Bike Run or Walk 4

January 7<sup>th</sup> 2018

This was a lot of firsts for BRoW4.

The first event of the year.

The first time we have organised an event at Hinchingsbrooke Country Park.

The first time that we have been able to have stalls, both indoors and out. And yet again, we are proud to say another success.

The first Sunday of the New Year Dog Walk, has been one of our favourite events, a few members of the BRoW4 team own dogs and we like to get them to socialise with others, and what better way than to organise a dog walk. For the past three

years we have organised the event around Earith near St Ives. Due to the success and the amount of dog walker who joined, it was suggested to move somewhere bigger.

After talking to Alexandra West, the manager of the Countryside Hall, it was agreed to move to Hinchingsbrooke Country Park.

BRoW4 attend local community events and mentioned to a few fellow stall holders if they would be interested in having a stall at this first at Hinchingsbrooke Country Park event. We were overwhelmed at the response. We had stalls both indoors and out selling everything from ribbons and bows for little girls to toys for the child within us.

Sweets for the humans and treats for the dogs. Accessories for the dogs and some for their owners. Jams and preserves plus some amazing pickles and chutneys. There was so much for the dogs and owners alike.

Owners walking around the park were coming in after saying hello to the Cromwell Vet gazebo who were there to advise on basic first aid for the dogs.

Sunday 28th January 2018

We took part in the Help Amelia Martin Family Fun Day, at New Manor Farm, Sawtry Way in Houghton.

This event was to help raise money and awareness for Amelia Martin, a married mother of a wonderful 6 year old boy, who has a rare tumour know as Grade 3 Papillary Meningioma.

# MARCH ISSUE 2018

Amelia has had two surgeries and radiotherapy treatment to remove a smaller brain tumour, unfortunately due to the rapid growth and awkward direction of this rare tumour, which has grown five centimetres since November 2017 hospitals in the UK have deemed it inoperable and untreatable.

However Amelia has now been approved treatment known as Proton Beam Therapy from a clinic in Prague in the Czech Republic. The treatment is not cheap and the NHS have not approved her funding.

Cathy Sellars, Amelia's best friend said 'Amelia is the kindest, most positive person I have ever met. She is a much loved mum, wife, daughter and sister. She wants to fight this tumour so that she

can watch her son grow up and be around him for as long as possible. So please help me to raise funds. Myself and her family would be so grateful. The money raised through Just Giving will fund Amelia's treatment abroad as well as any other treatment that she may need. Any money not spent on treatment and associated costs will be donated to cancer charities. Thankyou.'
